

What Should be the Management Focus for the Town Forest in Your Community?

Town Forests can be managed to provide a wide range of activities and community values. Four common use areas include Recreation, Education & Land Use Demonstration Projects, Natural Resources & Habitat, and Timber & Forest Products. While most publicly accessible forests provide some measure of all four types of uses, they tend to “lean” in one management direction or another. Where do you think the management focus should fall for the Town Forest in your community? Should it lean towards Recreation, Education, Timber & Forest Products, or Natural Resources & Habitat? **Place a dot** on the gradient line for each common use for where you think the management focus should fall in your Town Forest.
