

Ash Tree Protection Services Contact List

May 2025

The professional arborist and tree care companies listed below are offering services to protect ash trees from emerald ash borer (EAB) through insecticide treatment in Vermont. Each company listed meets three requirements:

1. Staff includes at least one Certified Arborist through the International Society of Arboriculture (ISA),
2. Staff includes at least one Vermont Certified Pesticide Applicator through the Vermont Agency of Agriculture, Food, and Markets, and
3. Company is in good standing with the Vermont Agency of Agriculture, Food, and Markets regarding their commercial pesticide applicator license.

The Vermont Urban & Community Forestry Program is providing this contact list without specific recommendations; the credentials listed above are baseline professional standards for arborist and tree care companies

For more information about:

- the International Society of Arboriculture, visit isa-arbor.com.
- about emerald ash borer preparedness, management options, and information on insecticide treatment, visit vtcommunityforestry.org/eab
