2. Are you subscribed to VT UCF's bimonthly TREEmail newsletter?

● Yes	18
● I don't think so	1
● No	0

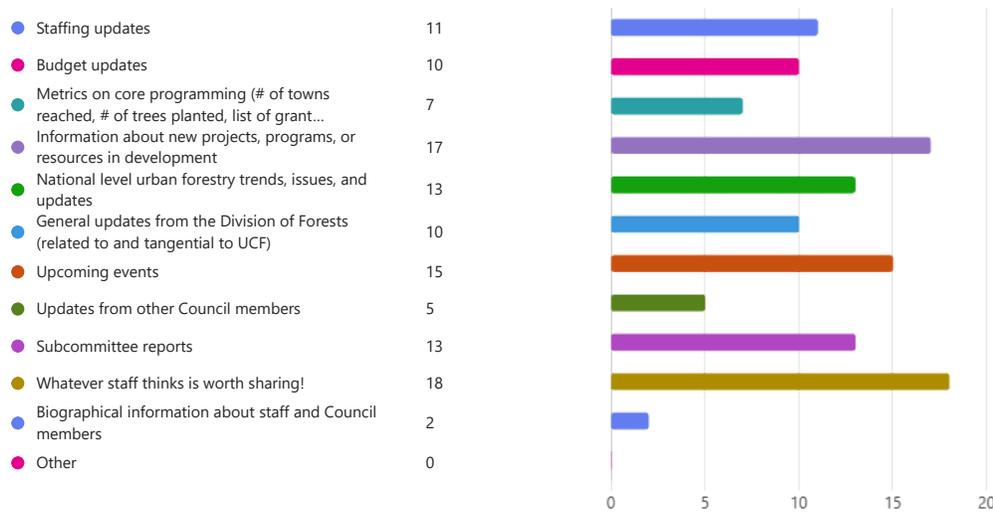

3. Since we have reduced the full Council meetings (from four to two), how often would you like to get updates from UCF Program staff via the Council listserv?

● Monthly	3
● Bimonthly	0
● Quarterly	4
● Whenever staff feel there is information to share	11
● Every 6 months at the in-person meetings	1
● Other	0

4. What information are you most interested in reading about in UCF program email updates? Select as many options as you'd like from the list below.

5. This question is related to Council member commitment and tenure. The VT Urban & Community Forestry Advisory Council has never had term limits, but historically every two years the Program Manager (Steve Sinclair, then Danielle Fitzko, now myself) would send a recommitment letter to each member asking for commitment to attend all meetings and participate at a level that matched their capacity. This was an established, regular chance for a member to opt in or out. The last time I did this was in 2023. Please check which option below most aligns with your feelings about member commitment and tenure.

6. Our annual Vermont Urban & Community Forestry Conference will be held on Thursday, May 28th at the VSU Campus in Randolph Center. Information can be found here: <https://vtcommunityforestry.org/education/vermont-urban-community-forestry-conference>. Please indicate your plans for participation below.

7. For our annual in-person business meeting at the end of the year, please reorder the dates below according to your meeting date preference. If you have no preference, please pull the "All dates work" option to the top.

8. Our annual UCF Council field trip will take place in Montpelier in 2026. We are hoping to see the installation of soils cells for downtown trees utilizing the Stockholm method. This is highly dependent on the construction schedule, which is set to begin in June. To increase our chance of seeing the open cells in progress, we will schedule the site visit for a little later than normal. Please indicate your preference for a date for this field trip by re-ordering the options below. If you do not have a preference, please pull "All dates work" to the top of your list.

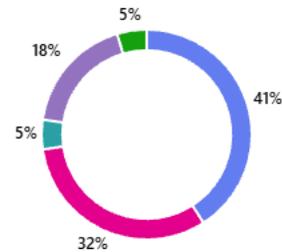

9. Are there any events on the horizon this year that you are organizing, participating in, or planning to attend this year that you think would be beneficial for VT UCF staff to know about?

10. In which Subcommittee would you like to participate in 2026? Select at least one.

- Agency Partnerships 9
- Advancing Arboriculture 7
- Non-profit Models for Urban and Community Forestry in Vermont 1
- Town Forests 4
- VT UCF Strategic Planning 1

11. Do you have suggestions or thoughts to offer to improve upon last year's Subcommittee structure/experience, or is there anything your Subcommittee lead should know about your interest and involvement?
